FASTPAK® COURIER ENVELOPES

tarheelpaper.com

Fastpak® courier envelopes feature polyethylene with superior tear and puncture resistance. The gray inner layer provides document confidentiality mailers and the white outer surface is ideal for high quality printing.

POLYAIR

FEATURES & BENEFITS

- White outer surface allows for excellent high resolution color printing
- Silver inner surface provides document security and confidentiality
- High slip lining allows easier product insertion/ extraction, increasing productivity
- Hot-melt self-seal closure provides a high strength tamper-evident closure
- Superior puncture resistance provides superior protection, resulting in less damage during transit
- Outstanding tear strength means no unwanted tears along the seam, ensuring perfect delivery every time
- Resistance to water and dirt means documents arrive clean and dry
- 100% polyethylene is store drop-off recyclable
